

Sprint Review Checklist

Sprint No.	1
Project Name	Iskolivery
Reviewer's Name	Bridget Noelle Legaspi
Review Date	February 8, 2019

This checklist is to be used to assess if sprint goals have been achieved during the sprint. Particularly, if the target features of the software have been built based on user acceptance criteria.

Functional Goals:

User Acceptance Criteria	Compliance		Remarks
	Yes	No	
UC-10.0-S1: Successful Login	/		Improve
UC-7.0-S1: Requester posts a request	/		
UC-8.0-S1: Fulfiller views his accepted requests	/		
UC-8.0-S2: Fulfiller accepts a request	/		
TOTAL	4		

Tester's Comments:

- Improve UI for successful login. As much as possible, follow mockups submitted last semester.

Usability Goals:

If interfaces will be delivered at the end of the sprint, evaluate the system according to Nielsen's Usability Heuristics. For items that are not applicable, check **NA**.

Nielsen's Usability Heuristics	Strongly Disagree					Strongly Agree	NA
	1	2	3	4	5		
Simple and Natural Dialogue					/		
Speaks the Users' Language				/			
Minimize User Memory Load					/		
Consistency				/			
Feedback							/
Clearly Marked Exits					/		
Shortcuts							/
Good Error Messages		/					
Prevent Errors		/					
Help and Documentation							/

Reviewer's Comments:

- Improve user interface
- Add error messages
- Suggestion is to add an 'About' page, like what Iskolivery is all about and probably mechanics.
